

Level 1/2 : Working with Female Sex Workers

“Really interesting, so much content, very helpful, covered all aspects”

This CPD accredited course is an interactive course designed by one of the lead national experts on Female Sex Work in the UK. It provides an extensive overview for anyone working in services who might support vulnerable that might include female sex workers. It clarifies definitions and the Law on Sex Work, the national context for Sex Workers, explores reasons for women’s involvement in sex work, issues faced by Female Sex Workers - both indoor and street (stigma and prejudice, violence, physical and mental health and substance abuse) and how these can be best addressed in a sex worker friendly service provision, based on best practice evidence and research.

Who is it aimed at?

- Professionals in third sector or public services that work with vulnerable women including harm reduction, sexual violence services, mental health and the police
