

Level 3 Trauma and Child Sexual Exploitation

“I feel better able to understand certain situation”

“Well informed, down to earth trainer, delivered in a way that was easy to understand”

Our new **CPD accredited** training course explores Trauma and Attachment and how it relates to CSE. The course will offer a comprehensive overview on how trauma and/or insecure attachments will manifest relating to CSE victims (those vulnerable to and those actually exploited), whether the trauma took place in early childhood or has been caused by recent or ongoing sexual exploitation. It also explores the impact of Vicarious Trauma on professionals. The course will draw upon our trainer’s extensive, relevant frontline experience of supporting young people affected by CSE and her work as a counsellor.

Who is it aimed at?

- Practitioners with experience of working with young people who have been affected by child sexual exploitation and assumes working knowledge of young people and CSE
- This can include Teachers, Social Workers, Counsellors, Foster Carers and Adoptive Parents, Care Workers, Youth Workers, Health Professionals, Police, and any other roles working directly with victims of Child Sexual Exploitation.

What the course covers:

- Understanding of different attachment styles
- Engaging with young people affected by CSE in relation to their attachment style
- How attachment styles affect how young people respond to interventions
- Typical responses of young people affected by trauma
- Consequences for engaging with young people affected by trauma and CSE
- Understanding and responding to Vicarious Trauma
